

JUTELOK™

100% ORGANIC MATTING

DESCRIPTION

JUTELOK™ Matting is 100% biodegradable erosion control mat made from jute fibre. JUTELOK™ Matting has been developed to promote growth and add to the enhancement of long term stability of steep slopes and indeed those areas which could be affected by erosion in time. It allows water filtration while protecting precious topsoil. JUTELOK™ Matting contains no synthetic materials and will not entangle wildlife or machinery. JUTELOK™ Matting is manufactured from AQIS certified material with no added chemicals or binders.

APPLICATIONS

JUTELOK™ Light Matting is engineered to allow the transmission of natural light making it ideal as a germination blanket for seeded areas. Light also reduces the effect of wind and water erosion, protect both top soil and seed and assisting grass establishment.

JUTELOK™ Heavy Matting acts as an excellent weed and erosion control geotextile and is designed to extend the period that it takes to biodegrade.

JUTELOK™ Heavy is also available in preslit rolls for rapid installation of tube stock plantings.

TYPICAL PROPERTIES

PROPERTY	LIGHT	HEAVY
Roll Dimensions	2 x 25m	2 x 25m
Thickness	3mm +/- 0.5mm	6mm +/- 1mm
Scrim Reinforced	YES	YES
Roll Mass	30	35

DISTRIBUTORS OF :

Geotextiles
Geogrids
Dewatering Tubes
Subsoil Drainage
Wick Drains
Erosion Control
Gabions & Rock Mattresses
Industrial Fabrics
Lining Systems
